MOSAIQ provides a fast and efficient solution for documenting patient images and information throughout the medical assessment and chemotherapy process:

- Includes diagnostic images, lab results, and external documentation
- Integrates the nuances of medical and radiation oncology charting
- Simplifies scheduling, billing, and laboratory management
- Intuitive user interface conforms to your workflow

MOSAIQ is the latest innovation from IMPAC, developer of the world's most widely used EMR for medical oncology. **To learn more, call**

# Safety Port Access Infusion Set

**Protection for you.**

**Comfort for them.**

**Better for everyone**

Announcing the K-Shield® Safety Port Access Infusion set. It offers a non-DEHP fluid path, breathability, siliconized needle and a simple safety activation device that provides protection from needle sticks. That means less irritation for your patients and less frustration for you. With a small footprint and low-profile design, this device makes all the difference. Additionally, this device is available with and without needleless access connectors.
