Hope. And the Science of Healing.

Success to Date

- Project implementation
- Quality metrics
- Achieving PBP

Data Analysis

- Tools utilized
- Conditions in our favor
 - Success in reducing ED visits, increased in-office services
 - Coding
 - Other model coefficients
- Areas for improvement
 - Palliative care and hospice use
 - Continued reduction in IP admissions and ED visits
 - Pathway adherence
 - Formulary changes

Options and Considerations

- Options
 - Remain in one-sided risk
 - Elect two-sided risk with risk partner
 - Elect two-sided risk with stop-loss insurance
- Considerations
 - New practices added in Q3/Q4 2018
 - Adding a new practice in December 2019 that is a current OCM practice
 - Practice risk tolerance
- Final decision
