

# ACCC CAPITOL HILL DAY

ACCC 43rd Annual Meeting - Capitol Hill Day

## ACCC Capitol Hill Day

With major policy changes happening in Washington, D.C., there is a great deal of uncertainty. Repealing the Affordable Care Act (ACA) without a replacement plan, potential reductions in Medicaid expansion, and proposals that include less comprehensive coverage for cancer patients could result in greater numbers of under- and uninsured patients, and higher uncompensated care costs for providers.

**There has never been a more important time to engage with your Congressional representatives to advocate for access to quality oncology care.**

Join ACCC on Wednesday, March 29, to share your insight and experiences with your elected officials. By discussing the challenges that you—and your patients—face, you can help ensure that legislation and programs reflect the reality of cancer care delivery.

## Capitol Hill Preparation and Briefing

Now available on-demand, the "ACCC Capitol Hill Day: What to Expect" webinar will inform you on how to prepare for meetings with your state's legislative staff, and how your participation can help to positively influence the future of community oncology.
