PRE-CONFERENCES

Radiation Oncology Pre-Conference

Explore forward-thinking strategies necessary for supporting radiation oncology program viability and innovation. Participate in robust, multidisciplinary discussions that address the critical issues—and opportunities—facing today's radiation oncology practices and programs.

Cost: Complimentary with your Annual Meeting registration. Can't attend the full meeting? ACCC members can register for the one-day pre-conference for \$75; non-ACCC members can attend for \$230, which includes one year of ACCC Individual Membership.

Surgical Oncology Pre-Conference

Through the examination of case studies, we'll explore the drivers and obstacles, building blocks, costs, and effective practices of a successful surgical oncology program. Participants will have the opportunity to critique, question, and learn from peers who have developed successfully integrated surgical oncology programs.

Cost: Complimentary with your Annual Meeting registration. Can't attend the full meeting? ACCC members can register for the one-day pre-conference for \$75; non-

ACCC members can attend for \$230, which includes one year of ACCC Individual Membership.

“

During the Surgery Oncology Pre-Conference, I was able to connect with colleagues who had low-dose CT programs. They gave me excellent insight on how to improve my current program that I will bring back to my program leadership.

Arielle Hollins, MHA

Multidisciplinary Team Manager,

Mary Bird Perkins Our Lady of the Lake Cancer Center
