**Patient Navigator Director
Charlotte, North Carolina**

The Levine Cancer Institute (LCI) is part of Carolinas Healthcare System, which serves 33 hospitals throughout North and South Carolina. The formation of LCI is part of an innovative vision to deliver localized community-based cancer care across the Carolinas, building upon its strong network of affiliated hospitals and providers while providing regionalized state-of-the-art technologies, specialists, and research with a high-touch, patient-centered focus.

The Patient Navigator Director will supervise and direct the patient navigator program, including the LCI Patient Navigator Academy. Serving as the single point of contact for the patient navigators, you will provide resources and assistance with access to clinical and supportive care services offered within LCI and to the communities we serve. In this role, you will collaborate with interdisciplinary teams and tumor-site-specific committees, ensuring high-quality care across all delivery sites and that core standards are maintained throughout all LCI patient navigator programs.

Essential Qualifications

Qualified candidates must possess a master's degree in Nursing, Oncology Certified Nurse (OCN) credentials, and 5 years of clinical experience in Oncology. Experience as an Oncology Nurse Navigator preferred.
