Multidisciplinary Approaches to Caring for Older Adults with Cancer

This new publication offers a convenient summary of challenges, successes, and effective practices to ensure that quality geriatric cancer care is implemented in a thoughtful, proactive, and cost-effective way. Read how two National Cancer Institute-designated programs and a comprehensive community cancer center are engaging in diverse approaches for improving care for older adults with cancer. The publication is available for download at: acc-cancer.org/geriatric.

As Heard on ACCCExchange

On our ACCCExchange online forum, cancer professionals connect virtually for important conversations about issues facing cancer programs and practices, share tested solutions, and offer advice to each other. Here is just some of what your peers have been discussing:

- New CoC Standards and CoC Program Tracking Tools
- Quality Metrics for Physicians
- Operating Breast Cancer Programs
- Tracking Time to Chemotherapy from Order
- Combining Oncology and Hematology Infusion Services
- Breast Biomarker Turnaround Times
- Emergent Treatment Policies

Be sure to check ACCCExchange frequently for the latest from our members.
