

## ENGAGE AND SUCCEED WITH HSCO!

You deserve a community that understands the complexities of the shifting healthcare landscape.  
**We can help.**

## WHO ARE WE?

The Hawaii Society of Clinical Oncology (HSCO) is a diverse community of cancer care professionals from across the state. **Since 1996, HSCO has provided a unified voice for multidisciplinary cancer care teams and the patients they serve.**

Members rely on HSCO for educational content and advocacy support in anticipation of—and response to—the challenges of delivering efficient, quality cancer care. We offer resources on coverage and reimbursement, federal and state legislation, integration of new treatment approaches, and more.

## SEE HOW HSCO CAN HELP YOU

*"The Hawaii Society of Clinical Oncology is the one local cancer organization that unites us all under one roof—whether we work for the university, a hospital, or in private practice - no matter what island we call home. We are able to bring in some of the world's best experts in the various disciplines and not only grow our knowledge, but also grow our friendships and connections which ultimately helps patients."*
