

**WEDNESDAY**  
**OCT. 12 | 2 P.M.**  
**WEST CAPITOL PARK**  
**ALBANY, NY**

**RALLY TO SUPPORT  
MEDICAID PARTICIPANTS' ACCESS TO  
SAFE & TIMELY CANCER TREATMENT**

**SAVE OUR ACCESS, SAVE OUR LIVES**

The New York State Department of Health (NYDOH) made a policy change to their Medicaid Pharmacy Program that prevents Medicaid patients from obtaining their oral medication through their physician dispensary.

This forces patients to receive their oral cancer medication prescriptions from a mail-order pharmacy - adversely affecting cancer patients' care by delaying time to treatment initiation and promoting the practice of unsafe management of highly complex oncology protocols by an outside entity, not the oncologist.
